**Get your free bonus-shares now! After Osisko and Tudor Gold, this might be the next Tenbagger opportunity of the same group!**

**The spin-out of the 'Crown property' in the heart of the Golden Triangle into the new established company Goldstorm Metals Corp. should again pay off massively for shareholders. STRONG BUY!**

**Important: Investors who own Tudor Gold shares in their portfolio on record as of November 10, 2022 will receive valuable free bonus shares of Goldstorm Metals Corp! So now it's time to be quick & smart!**

+++

**The excellent location of the 'Crown Concessions' in the heart of the Golden Triangle and in close proximity to world-class deposits speaks for enormous exploration and discovery potential.**

+++

**Gold stocks are down 30-60% in the last few months – smart investors take advantage of the current consolidation phase in the sector for the next leg up! Gold is and remains fundamentally in a bull market!**

Dear Readers,

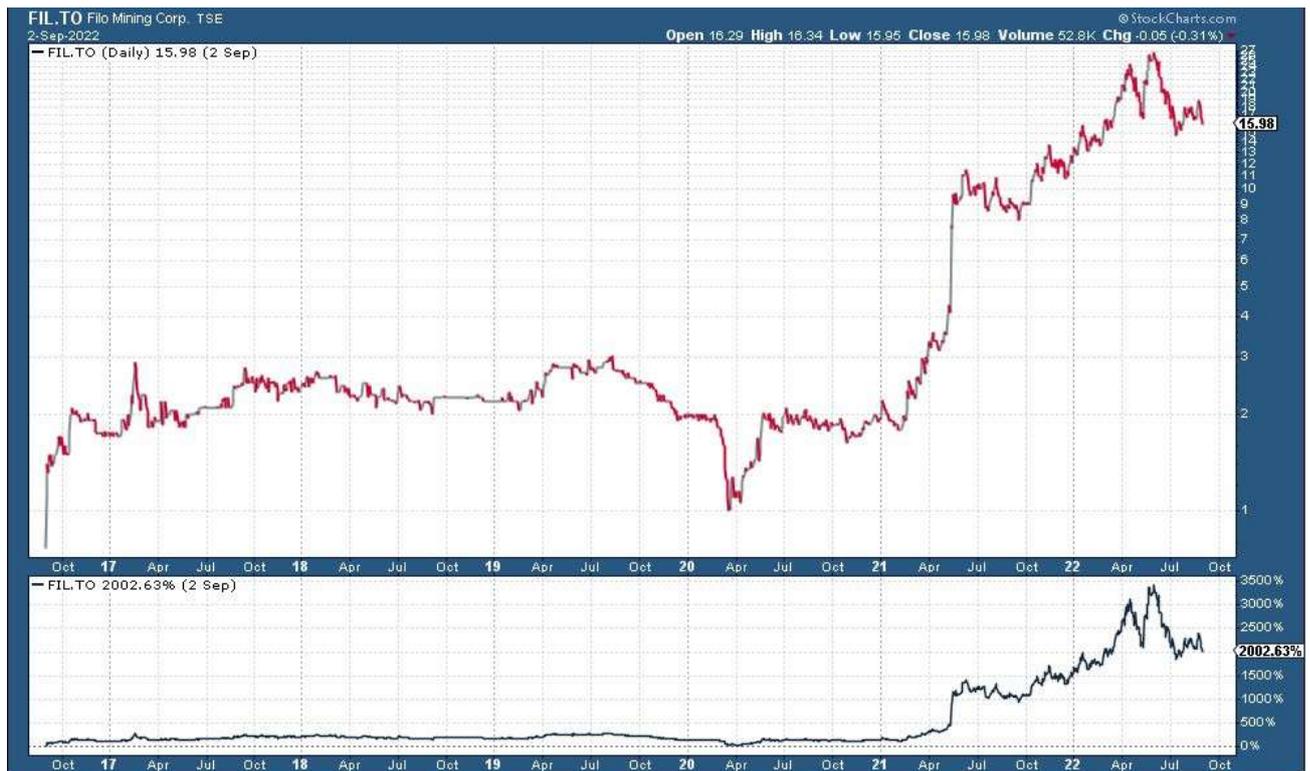

A good company management is characterized by the they do everything to increase the company's value for the shareholders (aka shareholder value). This can happen, for example, through cost-saving measures and, as for exploration companies also quite important, through the delivery of good drilling results.

Companies from the commodity sector have an additional, highly efficient opportunity to generate this so-called shareholder value through the **spin-out of attractive concession areas (properties) within the project portfolio.**

It is often the case that management focuses on a core or flagship project and market participants assign low or no "value" to the other projects in the existing corporate structure.

One successful example of such an **spin-out / spin-off** was the distribution of the '**Filo del Sol Project**' by **NGEx Resources** in 2016. Shareholders at the time received pro rata bonus shares of the new established company **Filo Mining Corp.**

Since the successful exploration discovery, the share price has **risen by several thousand percent** from less than **CAD 0.60** to **CAD 27.37**.

Source: Stockcharts.com

**And now there is a new, highly promising opportunity for smart investors to benefit from a spin-out (to receive free bonus shares)!**

**For 4 Tudor Gold Corp. shares one will receive 1 share of Goldstorm Metals Corp.**

**(please note that the record date is November 10, 2022!)**

Quelle Pixabay.com, JS Research UG

**Tudor Gold Corp.** (WKN: A2AJ7Y, Frankfurt: TUC, TSX-V: TUD) has announced such a spin-out in the most recent press release ([link here](#)) as of **November 7, 2022**. We have summarized below the most important information's from the press release for you:

- Tudor Gold shareholders on record as of **November 10, 2022**, will receive approximately **0.251 of a Goldstorm shares** for every one common share of Tudor Gold.
- **Goldstorm Metals Corp.** will acquire the six contiguous mineral properties in the Golden Triangle region (= CROWN properties) and issue in consideration 49,847,967 Goldstorm Metals shares to the Tudor Gold shareholders.
- Subject to the approval of the TSX Venture Exchange, the common shares of Goldstorm Metals are anticipated to be listed for trading under the ticker symbol "GTSM" at the close of business on November 10, 2022, and immediately halted pending closing of the Arrangement. The Goldstorm Metals shares are expected to resume trading on or about **November 11, 2022**, subject to TSXV approval.

**Although the exact listing date and initial market valuation of Goldstorm Metals Corp. is not known at this point, the value of the bonus shares may represent a nice additional value for Tudor shareholders.**

**We have created a hypothetical evaluation model below. For example, in case that the trading price is at **CAD 0.35**, the market cap of Goldstorm Metals would be around CAD 22.4 million.**

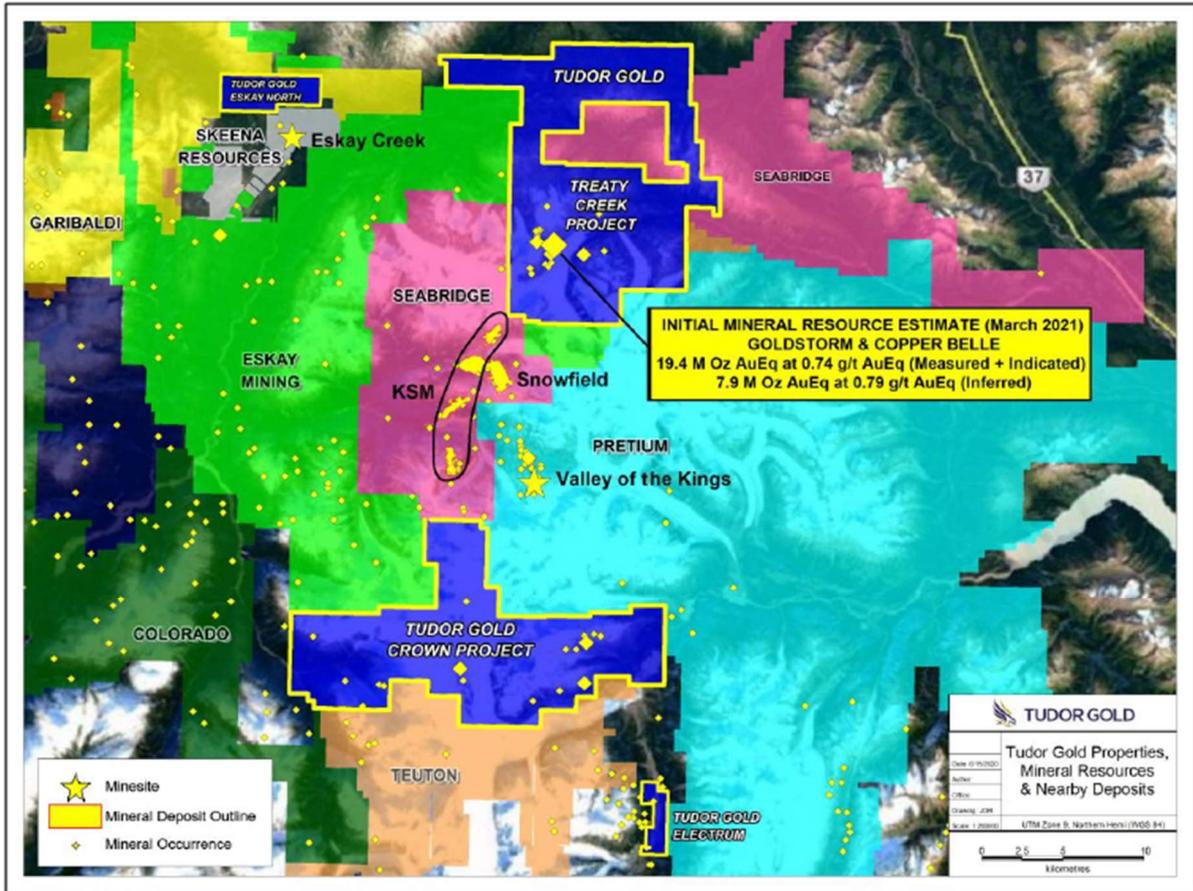

**A Tudor shareholder who owns **25,000 shares (current value @ 1.25 CAD = 31,250 CAD)** by the record date, would receive **6,275 bonus shares** with a possible value of **CAD 2,196**.**

## **Background information's on ,CROWN', which is Goldstorm Metals Corp's new flagship project:**

The CROWN concession rights include the Mackie East, Mackie West, Fairweather, High North, Delta and Orion and Electrum properties.

**The approximately 16,307-hectare project is centrally located in the heart of the Golden Triangle, just a few kilometers from Seabridge Gold's KSM project and Newcrest's VOK project.**

Source: Tudor Gold Corp.

The CROWN Project has a number of known mineral occurrences consisting of high-grade Au-Ag veins and massive sulphide blocks, but little modern exploration or drilling has been completed to date to test the extent of these zones.

Various geological background information on the CROWN project can be found on the Tudor Gold website: [LINK HERE](#)

To the south, in the center of the Crown property, is the so-called "**Kyba Red Line**", a recognized geological feature that is spatially related to many of the major deposits in the region.

This "Kyba Red-Line" is named by **Jeff Kyba**, who served as a regional geologist with the BC Ministry of Energy and Mines between 2011 and 2017.

**Jeff Kyba** emphasized the important geological significance of this so-called "red line" (the contact between Triassic and Jurassic rocks) and was quoted as saying in the May 1, 2015 issue of Northern Miner:

*"If you are near this red line and there is a clastic sequence associated with large-scale faulting, you may be near British Columbia's next major deposit. And knowing that is a huge game changer for explorers in the region because it brings them closer to discovery."*

The central location of the "**Crown Jewels**" (**CROWN**) project and results from previous soil sampling (e.g. the Orion drill target with 12.5 g/t gold over 0.4 metres) give us confidence that the project has an **extraordinary discovery potential!**

**We can expect that investors will stock up on Tudor shares before the record day to get the Goldstorm Metals bonus shares.**

**This could lead to a substantial BUYING PRESSURE in the short term for Tudor Gold shares!**

**(WKN: A2AJ7Y, Frankfurt: TUC, TSX-V: TUD)**

**For all new readers, we have briefly put together some background information on Tudor Gold:**

**Tudor Gold** is a precious and base metal exploration company with properties in the 'Golden Triangle' of British Columbia, an area of producing or past producing mines and several large deposits near potential development. The 17,913-hectare Treaty Creek project (in which Tudor Gold has a 60% interest) is bordered to the southwest by Seabridge Gold Inc.'s KSM property and to the southeast to Newcrest's Mining.

From the southwest corner of the Treaty Creek claims bordering Seabridge Gold's concession areas, the Sulfurets Thrust Fault leads from the Seabridge Iron Cap deposit to the Tudor Gold Goldstorm system. **The 'Goldstorm' zone is located five kilometers northeast of Seabridge's 'Iron Cap' deposit.**

## A District of Giant Reserves and Resources

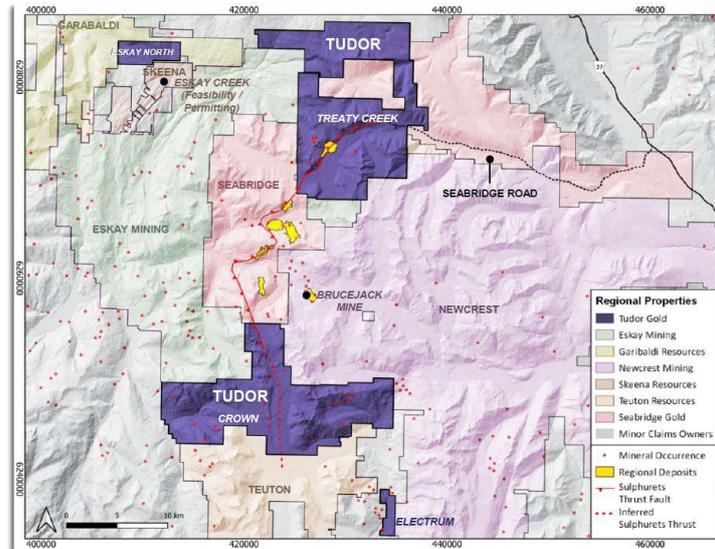

Tudor Gold's properties are strategically positioned next to some of the largest undeveloped and producing gold & copper resources in the world:

Seabridge's deposits contain reported Resources (M&I) totaling over 76.4 Million oz Gold & 17.6 Billion lbs Copper.

**Goldstorm/Copper Belle Deposit** contributes to Resources in the Sulphurets Mineral District; (M&I) 19.4 Million oz Gold Eq.

**Crown Property:** proposed spin-out into Goldstorm Metals Corp in the spring of this year.

**Eskay North Property** adjacent to Skeena's Eskay Creek.

### **Top Facts & Highlights about Tudor Gold Corp:**

- ✓ **Initial resource estimate published on Treaty Creek in March 2021: 27.3 million ounces of Gold Eq (of which 19.4 million ounces at 0.74 g/t Gold Eq in the Measured and Indicated resource category)**
- ✓ **Enormous exploration potential** – most parts of the exploration projects are still largely unexplored. There are several **high potential exploration targets on Treaty Creek** (e.g. 'Perfect Storm' / 'Eureka' / 'Calm before the Storm').
- ✓ **Prime location:** huge land package in the famous Canadian 'Golden Triangle' region - **more than 145 million ounces of gold and 50 billion Pounds of copper have already been discovered within a few kilometers to Treaty Creek.**
- ✓ The flagship project 'Treaty Creek' is right next to the largest world-class deposits and mines. (Seabridge Gold and Newcrest Mining)
- ✓ Extremely promising project portfolio with over **35,518 hectares** of concession areas, spread over three projects.
- ✓ Treaty Creek' is close to good infrastructure: **the nearest road and power line are only around 25 km away.**
- ✓ There is running water all year round on Treaty Creek - this is an important requirement for future mining operations.
- ✓ Excellent geological location of the acquired land packages in mining-friendly British Columbia, Canada.
- ✓ **Top Management** - Very experienced and successful team led by the award-winning geologist **Ken Konkin**, who was appointed as President & CEO on December 21, 2021.

He was instrumental in the discovery of Pretium Resources 'The Valley of Kings' deposit (now Newcrest).

- ✓ Founder of Tudor Gold is the renowned **Walter Storm**, who was also Co-founder of the Canadian mining company Osisko Mining. Mr. Storm was the Chairman of Tudor Gold until his death in June 2022.
  
- ✓ **World-class drill results at flagship project ,Treaty Creek': e.g.**
  - Drill hole GS-22-134: 20.86 g/t Au Eq over 4.50 meters within an intercept of 25.5 meters of 9.96 g/t Au Eq;
  - Drill hole GS-22-158: 1.82 g/t Au Eq over 114 meters within an intercept of 592.5 meters of 1.16 g/t Au Eq;
  - Drill hole GS-22-143: 70.96 g/t Au Eq over 1.00 meter within an intercept of 2.00 meters of 39.15 g/t Au Eq;
  - Drill hole GS-21-113-W2: 1.12 g/t Au Eq over 1,497.5 meters including 2.48 g/t Au Eq over 168.0 meters;
  - Drill hole GS-20-65: 1.161 g/t AuEq over 930 meters including 2.12 g/t Au Eq over 348 meters;
  - Drill hole GS-20-92: 0.999 g/t Au Eq over 531 meters including 3.286 g/t Au Eq over 82.5 meters;
  - Drill hole GS-20-91: 0.856 g/t Au Eq over 1,033.5 meters including 1.112 g/t Au Eq over 532.5 meters;
  - Drill hole GS-21-113-W1: 4.07 g/t Au Eq over 78.0 meters within 1.30 g/t Au Eq over 459.0 meters;
  - Drill hole GS-20-83: 0.821 g/t Au Eq over 921 meters including 1.078 g/t Au Eq over 345 meters;
  - Drill hole GS-20-73: 0.932 g/t Au Eq over 775.5 meters including 1.502 g/t Au Eq over 229.5 metres;
  - Drill hole GS-19-42: 0.849 g/t Au Eq über 780 meters including 1.275 g/t Au Eq over 370.5 meters within the 300 horizon zone;
  
- ✓ Tudor Gold is a prime M&A acquisition target.
- ✓ **Strong support for the 'Tahltan First Nation'**: Signing of a commitment and communication agreement.
- ✓ **Clear vote of confidence** - as of August 25, 2022, close to 45% of the shares were hold by **Tudor Holdings Ltd. (27.22%)** and resource investor **Eric Sprott (17.61%)**.

With speculative greetings,

Jörg Schulte

This promotional article was created on November 7, 2022 by Jörg Schulte, Managing Director of JS Research UG (limited liability). According to §84 WPHG, activities of JS Research UG (limited liability) ARE registered at BaFin! Sources: Tudor Gold, Stockcharts.com, Pixabay.com, Adobe, Twitter.com.

**Disclaimer, risk information and exclusion of liability:** We expressly point out that we accept no liability for the content of external links. Every investment in securities is fraught with risks. Due to political, economic or other changes, there can be considerable price losses. This applies in particular to investments in (foreign) small caps as well as in small and microcap companies; Due to the low market capitalization, investments in such securities are highly speculative and involve an extremely high risk, including the total loss of the invested capital. In addition, some of the stocks presented by JS Research UG (limited liability) are subject to currency risks. The background information, market assessments and securities analysis published by JS Research UG (limited liability) for the German-speaking area were prepared in compliance with the Austrian and German capital market regulations and are therefore intended exclusively for capital market participants in the Republic of Austria and the Federal Republic of Germany; other foreign capital market regulations were not taken into account and do not apply in any way. The publications by JS Research UG (limited liability) are for informational purposes only and expressly do not represent a financial analysis but are promotional texts of a purely advertising nature for the companies discussed, which typically pay a fee for this. There is no consulting contract between the reader and the authors or the publisher in existence by reading or subscribing the JS Research UG (limited liability) publications. All information and analysis do not constitute a solicitation, an offer or a recommendation to buy or sell investment instruments or for other transactions. Every investment in stocks, bonds, options or other financial products is subject to - in some cases considerable - risks. The publisher and authors of JS Research UG (limited liability) publications are not professional investment advisors!!! Therefore, it is essential that you always seek advice from a qualified specialist (e.g. your house bank or a qualified investment advisor you trust) when making investment decisions. All information and data published by JS Research UG (limited liability) come from sources which we consider to be reliable and trustworthy at the time of preparation. However, no guarantee can be given with regard to the correctness and completeness of the information and data. The same applies to the evaluations and statements contained in the analysis and market assessments by JS Research UG (limited

liability). These were created with the necessary care. Any responsibility or liability for the correctness and completeness of the information contained in this publication is excluded. All statements of opinion made reflect the current assessment of the author, which can change at any time without prior notice. No guarantee or liability is expressly assumed that the price or profit development forecasts by JS Research UG (limited liability) will materialize.

**Information on conflicts of interest:** The editors and responsible authors hereby declare that the following conflicts of interest with regard to the Tudor Gold company discussed in this publication exist at the time of publication: I. At the time of publication, the authors hold shares in Tudor Gold and reserve the right to retain them sell or take new positions in Tudor Gold at any time and without notice. The authors and the publisher cannot rule out that other stock market letters, media or research firms may discuss Tudor Gold shares during the same period. Therefore, symmetrical generation of information and opinions can occur during this period. This publication by JS Research UG (limited liability) is expressly not a financial analysis, but a publication of a very clear and clearly promotional character and thus to be understood as an advertising / marketing message. According to §34 WpHG I would like to point out that the author, editors, clients or brokers hold shares, options or warrants at the time of publication and can increase or sell these positions at any time! This clearly and specifically creates a conflict of interest.

We expressly point out a conflict of interest. This also applies to options and derivatives based on these securities. Any resulting transactions may, under certain circumstances, affect the company's share price. The information, recommendations, interviews and company presentations published on the "websites", the newsletter or the research reports are usually paid for by the respective companies or third parties (so-called "third parties"). The "third parties" include, for example, investor relations and public relations companies, brokers or investors. JS Research UG (limited liability) or its employees can partially be compensated directly or indirectly for the preparation, electronic distribution and other services by the discussed companies or so-called "third parties" with an expense allowance. Even if we prepare each report to the best of our knowledge and belief, we advise you to consult other external sources, such as your house bank or a trusted investment advisor, with regard to your investment decisions. For this reason, liability for financial losses that may result from using the information discussed here for one's own investment decisions is categorically excluded. Particularly in the case of commodities and exploration stocks and low capitalized stocks, the portfolio proportions of individual shares should only be so much that even in the event of a total loss, the total portfolio value can only lose marginal value. In particular, stocks with a low market capitalization (so-called "small caps") and especially exploration stocks as well as all listed securities in general are subject to considerable price volatility. The liquidity in the securities can be correspondingly low. When investing in the commodity sector (exploration companies, raw material producers, companies developing raw material projects), additional risks must be taken into account. Below are some examples of specific risks in the commodity sector: Country risks, currency fluctuations, natural disasters and storms (e.g. floods, storms), changes in the legal situation (e.g. export and import bans, punitive tariffs, prohibition of raw material extraction or raw material exploration, nationalization of projects), environmental requirements (e.g. higher costs for environmental protection, designation of new

environmental protection areas, prohibition of various mining methods), fluctuations in raw material prices and considerable exploration risks.

**Disclaimer:** All information published in the report is based on careful research. The information does not represent an offer to sell the shares discussed, nor an invitation to buy or sell securities. This report only reflects the personal opinion of Joerg Schulte and is in no way to be equated with a financial analysis. Before making any investments, professional advice from your bank is essential. The statements are based on sources that the publisher and his staff consider to be trustworthy. Nevertheless, no liability can be assumed for the correctness of the content. No guarantee is given for the accuracy of the charts and data on the commodity, currency and stock markets shown. The source language (usually English) in which the original text is published is the official, authorized and legally valid version. This translation is included for better understanding. The German version can be shortened or summarized. No responsibility or liability is assumed for the content, correctness, appropriateness or accuracy of this translation. From the perspective of the translator, the message does not constitute a buy or sell recommendation! Read here - <https://www.js-research.de/disclaimer-agb/> -. Please also note the original English message, if available. It may happen that we use third party providers for the electronic distribution of news and content about our customers / our featured companies. However, we have no control over the content of the information published by our featured companies and / or third-party providers, and we do not review them.
